

NorthBridge Solutions — Work-From-Home (WFH) Policy

1. Policy Statement

NorthBridge Solutions supports a hybrid working model that balances business needs with employee flexibility. This policy defines eligibility, scheduling, equipment, and expectations for employees working from home.

2. Eligibility

All full-time employees who have completed their probation period are eligible for the hybrid work arrangement, subject to role requirements. Roles that require physical presence (e.g., front-desk, warehouse operations) are excluded and governed by their department-specific policy.

3. Standard Hybrid Schedule

The default hybrid schedule requires employees to work from the office a minimum of 3 days per week, with the remaining days available for remote work. Managers may, with HR approval, authorize a fully remote arrangement for specific roles.

4. Requesting Fully Remote Work

Employees seeking a fully remote arrangement (5 days per week) must submit a request through the HR portal along with manager endorsement. Requests are reviewed on a case-by-case basis considering role, performance, and team needs.

5. Equipment and Reimbursement

The company provides a laptop and standard peripherals for remote work. Employees working from home are eligible for an internet reimbursement of up to INR 1,500 per month upon submission of a valid bill.

6. Availability and Communication

Employees working from home are expected to be reachable during core collaboration hours (11:00 AM–4:00 PM) via company-approved communication tools and to attend all scheduled meetings with camera on unless otherwise agreed with their manager.

7. Data Security While Working Remotely

Employees must use company-issued devices and an approved VPN when accessing internal systems remotely. Working from public Wi-Fi networks without VPN protection is prohibited. Any suspected security incident must be reported to IT Security within 24 hours.

8. Policy Review

This policy is reviewed annually by Human Resources and may be updated to reflect changes in business needs or applicable regulation. Employees will be notified of material changes at least 30 days before they take effect.
